

C-9506

# Air Switching Cumulator

## Description

The C-9506 Air Switching Cumulator switches output pressure from zero to full supply pressure when the pilot pressure reaches the switch point.

## Features

- ideally suited for exhaust damper applications requiring high output volume for quick operation
- adjustable switch point
- mounts in any position with integral mounting holes in base

## Repair Parts

If the product fails to operate within its specifications, unit replacement is required.

## To Order

Specify code number **C-9506-1**.

## Accessories

Code Number	Description
T-3100-605	Air Connection Filter

## Specifications

C-9506 Air Switching Cumulator	
Action	Two Position DA
Switch Point	Adjustable from 2 to 12 psig (14 to 84 kPa) Factory Set at 9 psig (63 kPa)
Differential	1 psig (7 kPa)
Maximum Supply Pressure	25 psig (175 kPa)
