

T-4506

# Dual Temperature Thermostat

## Description

The T-4506 Thermostat is a high volume output, dual temperature, dual dial thermostat. The T-4506 provides individual day and night, or two set point temperature control.

## Features

- available in Direct Acting (DIR) and Reverse Acting (REV) models
- includes Fahrenheit dial
- direct acting available in vertical or horizontal model
- reverse acting available in horizontal model
- available with optional manual indexing switch that permits you to restore the day temperature of the individual thermostat without affecting the other system thermostats
- Indexing switch can be unlatched manually or will automatically reset with the day cycle.

## To Order

Specify the code number from the following selection chart.
