

# Damper Replacement Parts

## CD-1300 Control Dampers

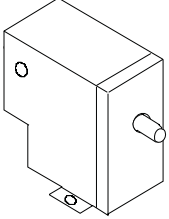

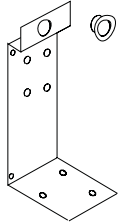

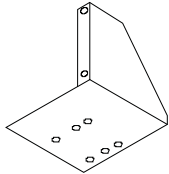

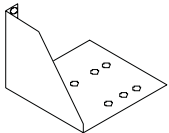

**IMPORTANT:**The length of all blade seals shipped from the factory will fit a 48 inch wide panel.

CD-1300 Control Dampers	
<p><b>DMPR-RC001 - Blade Seal Standard Temp</b> <b>DMPR-RC052 - Blade Seal High Temp</b></p> <p>DMPR-RC001 and DMPR-RC052 are used with double-piece and airfoil blades in parallel operation.</p>	
<p><b>DMPR-RC002 - Blade Seal Standard Temp</b> <b>DMPR-RC051 - Blade Seal High Temp</b></p> <p>DMPR-RC002 and DMPR-RC051 are used with double-piece and airfoil blades in opposed operation.</p>	
<p><b>DMPR-RC003 - Blade Seal Standard Temp</b></p> <p>DMPR-RC003 is used with 16-gauge blades manufactured before date code 0696, in parallel and opposed operation.</p>	
<p><b>DMPR-RC004 - Blade Seal Standard Temp</b></p> <p>DMPR-RC004 is used with airfoil blades with extension piece.</p>	
<p><b>DMPR-RC005 - Blade Seal Standard Temp</b> <b>DMPR-RC053 - Blade Seal High Temp</b></p> <p>DMPR-RC005 and DMPR-RC053 are used with a double-piece blade for the top and bottom.</p>	
<p><b>DMPR-RC006 - Blade Seal Standard Temp</b></p> <p>DMPR-RC006 is used with double-piece and airfoil blades top and bottom with extensions, and all 16-gauge blades manufactured after date code 0696, in parallel and opposed operation.</p>	

## Damper Replacement Parts (Continued)

CD-1300 Control Dampers (Continued)	
<p><b>DMPR-RC054 - Blade Seal High Temp</b></p> <p>DMPR-RC054 is used with double-piece and airfoil blades with extensions for top and bottom blades.</p>	

## Life Safety Dampers

Life Safety Dampers	
<p><b>DMPR-RS0xx High Temperature Electric Actuator</b></p> <p>DMPR-RS001 is a replacement 16 in-lb, 24 VAC electric actuator used on smoke dampers.</p> <p>DMPR-RS002 is a replacement 16 in-lb, 24 VAC electric actuator with switch used on smoke dampers.</p> <p>DMPR-RS003 is a replacement 16 in-lb, 120 VAC electric actuator used on smoke dampers.</p> <p>DMPR-RS004 is a replacement 16 in-lb, 120 VAC electric actuator with switch used on smoke dampers.</p> <p>DMPR-RS005 is a replacement 60 in-lb, 24 VAC electric actuator used on smoke dampers.</p> <p>DMPR-RS006 is a replacement 60 in-lb, 24 VAC electric actuator with switch used on smoke dampers.</p> <p>DMPR-RS007 is a replacement 60 in-lb, 120 VAC electric actuator used on smoke dampers.</p> <p>DMPR-RS008 is a replacement 60 in-lb, 120 VAC electric actuator with switch used on smoke dampers.</p>	
<p><b>DMPR-RS101 Electric Actuator Bracket, External</b></p> <p>DMPR-RS101 is a replacement mounting bracket for smoke dampers with externally-mounted electric actuators.</p>	
<p><b>DMPR-RS102 Electric Actuator Bracket, Internal Right</b></p> <p>DMPR-RS102 is a replacement mounting bracket for smoke dampers with internally-mounted electric actuators on the right side.</p>	
<p><b>DMPR-RS103 Electric Actuator Bracket, Internal Left</b></p> <p>DMPR-RS103 is a replacement mounting bracket for smoke dampers with internally-mounted electric actuators on the left side.</p>	
<p><b>DMPR-RS20x Fusible Link</b></p> <p>DMPR-RS201 is a 165xF fusible link used on fire dampers with part number FOVLN.</p> <p>DMPR-RS202 is a 212xF fusible link used on fire dampers with part number FOVHN.</p>
