24 VAC Commercial Panels

CP-20X20-24VAC

CP-20X20-24VAC-VERT

CP Series commercial control panels by Stromquist

These 24 volt commercial control panels from Stromquist are a great way to jump start your control panel projects. They feature pre-wired/mounted terminals, transformer, and wire duct. Save time and resources by using these pre-wired control panels.

Features:

- 20"x20"x6" NEMA 1 Lockable Enclosure
- Perforated Back Plate
- 100VA 24VAC Transformer with circuit breaker and convenience outlet.
- 24VAC Power Distribution Block with insulation displacement connections. No need to strip wire.
- 120VAC Incoming Power Terminals prewired to transformer primary.
- Two layouts to choose from to better accommodate device orientation
